About US:

"Splendore India" started its Journey in the year 2017 (unofficially) finding its way to excellence in chemical free Soaps. It came into existence in the year 2019 after a lot of research. Our passion to make Natural or Chemical Free or Handmade Soaps has brought us to the stage where we are confident about our products and services. We have immensely focused to break through the stereo type of soap bars. The indulgence of pure vegetable oils pampers your skin and moist it naturally. The raw essential oils not only heal

your body but your mind and soul too. Our compassion, dedication and patience has given us the virtue to present our product to the world. It rewards your body, mind and soul with richness of vitamins, antibacterial properties, energy and lets you feel good about yourself. It also helps you to get rid of acne, stress and depression. It is time for a change in the world with a change in you. Give your skin what it needs because – "A Healthy Skin is Healthy You".
